LeetCode

Education

National Institute of Technology, Kurukshetra	2022 – 2026
B.Tech in Electrical Engineering CGPA: 7.74	Kurukshetra, Haryana
Thukral Public Sr. Sec. School, Loharu	2021
CBSE Class XII Percentage: 93%	Loharu, Haryana

Experience

Web Development Intern	June 2024 – July 2024
CodSoft	Remote
- Developed responsive and interactive web application components using HTML, CSS, and JavaScript. - Implemented frontend features with focus on clean UI/UX, cross-browser compatibility, and responsive design principles. - Worked on real-world development tasks involving DOM manipulation, event handling, and dynamic user interfaces. - Improved problem-solving and debugging skills through hands-on project development and iterative testing.	
Research & Product Intern	May 2025 – July 2025
Yushu Excellence Technologies Pvt. Ltd.	Remote
- Improved application usability by 25% through workflow analysis and UI redesign initiatives. - Developed frontend components using React.js and integrated backend services using Node.js. - Collaborated in Agile sprints to deliver 3+ production-oriented features within timelines. - Worked on API integration, debugging, and scalable application workflows.	

Projects

Praamaan — Privacy-First ZKP Authentication System React Native, Node.js, Circom, SnarkJS, Solidity
- Engineered a secure authentication and attendance platform using Zero-Knowledge Proofs (ZKP), ensuring privacy-preserving identity verification at scale. - Developed scalable REST APIs for authentication, attendance management, and role-based access control. - Built cross-platform mobile interfaces (React Native) for real-time attendance workflows. - Integrated Solidity smart contracts and cryptographic proof generation pipelines using Circom and SnarkJS.
YieldMax — Cross-Chain DeFi Optimization Platform React.js, Solidity, Chainlink CCIP, Hardhat
- Built a full-stack DeFi platform for multi-chain asset allocation and yield optimization across protocols. - Implemented real-time portfolio monitoring and dynamic rebalancing workflows using Chainlink CCIP. - Developed analytics dashboards for visualization and performance tracking of on-chain positions.
ClickNotes — MERN Notes Management Platform MongoDB, Express.js, React.js, Node.js
- Developed a responsive full-stack note management app with complete CRUD functionality and user authentication. - Built reusable React components and RESTful backend services with MongoDB integration.

Achievements

LeetCode 300+ DSA Problems Solved	Ongoing
Focused on algorithmic optimization techniques; consistent problem-solver across arrays, trees, graphs, and DP.	
Hackathons & Collaborative Development Open Source Contributions	Multiple
- Led collaborative development efforts during hackathons under strict timelines, delivering functional prototypes. - Conducted peer learning sessions on web development and blockchain fundamentals for fellow students.	

Technical Skills

Languages: JAVA (expert), Python, JavaScript, SQL
Full-Stack Development: React.js, Redux, React Native, Node.js, Express.js, REST APIs, HTML, CSS, Tailwind CSS
Blockchain: Solidity, Chainlink CCIP, Circom, SnarkJS, Smart Contracts, Hardhat
Tools & Platforms: Git, Docker, Postman, MongoDB, Hardhat, VS Code
Core CS: Data Structures & Algorithms, OOPs, DBMS, Operating Systems
Concepts: Agile, API Design, CI/CD Basics, Scalable Architecture, Microservices

Extracurricular Activities

Team Athletics — NIT Kurukshetra	Aug 2023 – May 2025
Member	Kurukshetra, Haryana
- Participated in competitive athletic events, demonstrating discipline, teamwork, and resilience under pressure. - Assisted in organizing annual sports fest activities and inter-college coordination events.
